## CYPRESS (juniperus vj)

Reference : 10364-72

### Product photos

## Description

Artificial CYPRESS (juniperus vj), with a height under foliage of 120 cm and a trunk height above the original pot of 24 cm. The base is a PVC pot 16 cm in diameter and 15 cm high. Suitable for outdoor use, but the wooden trunk must be treated with a water-repellent product. The original pot must be pierced to allow water to drain out. It should be attached to the decorative planter, creating drainage to prevent water stagnating at the foot of the plant. Wood is a living material. Outdoors, it is perfectly normal for wood to peel. Simply maintain it with light brushing, then reapply a water-repellent varnish.
