Data sheet

ROUND CONICAL FIBER

Reference : FINED3935G

Product photos

Description

ROUND CONICAL FIBER can be used indoors and outdoors. It is frost and UV resistant. The top diameter is 39 cm and the bottom is 31 cm. The natural look of fiberstone is achieved by mixing natural stone powder and fibreglass resin. The natural colour may vary slightly from one batch to the next, and may also change with the weather. Be careful to take into account the internal dimensions, i.e. a top diameter of 31 cm and a bottom diameter of 28.5 cm.
