## MOSS WOOD 100x200

Reference : 2491-71

### Product photos

### Description

Artificial MOSS WOOD 100x200, with an "earthy" underlay. For best results, we recommend you unfold the panels 24 hours before use. Assembling the panel in several pieces on a support guarantees its natural effect. You may also need to apply a few dots of glue in places as you work on it.
