Data sheet

CROSSOSTEPHIUM UV

Reference : 14811-UV78

Product photos

Description

Artificial CROSSOSTEPHIUM UV, with a height under foliage of 35 cm, at the base is a PVC pot with a diameter of 17.5 cm and a height of 15 cm. The original pot must be pierced to allow water to drain out. It should be attached to the decorative planter, creating drainage to prevent water stagnating at the foot of the plant. Suitable for outdoor use, but the wooden trunk must be treated with a water-repellent product. UV resistance guarantee: 2000 hours (hours of sunlight), i.e. approximately 2 years. This is a mid-range product.
