Data sheet

ARALIA PE TREE UV

Reference : 11988-UV78

Product photos

Description

Artificial ARALIA PE TREE UV, composed of 1392 leaves and 4 trunks with a diameter of 3 cm, with a height under foliage of 130 cm. The base is a PVC pot 22 cm in diameter and 20 cm high. Suitable for outdoor use. The original pot must be pierced to allow water to drain out. It should be attached to the decorative planter, creating drainage to prevent water stagnating at the foot of the plant. Wood is a living material. Outdoors, it is perfectly normal for wood to peel. Simply maintain it with light brushing, then reapply a water-repellent varnish. UV resistance guarantee: 2000 hours (hours of sunlight), i.e. approximately 2 years.
