Product photos

Description

Artificial BOXWOOD BALL NEW, with a trunk height of 33 cm. The wood used for the trunk is Theaceae. Suitable for outdoor use, but the wooden trunk must be treated with a water-repellent product. The original pot must be pierced to allow water to drain out. It should be attached to the decorative planter, creating drainage to prevent water stagnating at the foot of the plant. Wood is a living material. Outdoors, it is perfectly normal for wood to peel. Simply maintain it with light brushing, then reapply a water-repellent varnish.
