## BOXWOOD BALL NEW

Reference : 10269-71

### Product photos

### Description

Artificial BOXWOOD BALL NEW, with a trunk height of 170 cm, the species used for the trunk is Theaceae. The base is a square wooden pot measuring 25\*33 cm. Suitable for outdoor use, but the wooden trunk must be treated with a water-repellent product. The original pot must be pierced to allow water to drain out. It should be attached to the decorative planter, creating drainage to prevent water stagnating at the foot of the plant. Wood is a living material. Outdoors, it is perfectly normal for wood to peel. Simply maintain it with light brushing, then reapply a water-repellent varnish.
