EXPLOSION OF COLOR .. IN FUCHSIA

Bougainvillea T: a real explosive of fuchsia color. This tree will blend harmoniously into your decors, projects, halls, restaurants or even waiting rooms. It's impressively realistic, with foliage made up of 1,360 flowers and green leaves in high-quality fabric. It consists of three intertwined wooden trunks and intertwined vines. The whole looks so natural that you can almost hear the cicadas singing beneath it
