

February stretches on under challenging weather conditions here in France, yet your projects must keep moving forward. Many of you are navigating particularly busy weeks.

At Vert Espace, the first hints of spring are gently making their way into our latest arrivals. From the “Sunny” lemon trees to the blossoming cherry tree and the Camerus palm, these sun-kissed silhouettes are already shaping new horizons.

Enjoy the discovery.

Lemon Tree Sunny

Lemon Tree Sunny combines fruit and blossoms for a more vibrant and nuanced presence. Available in three heights, each model features a carefully adjusted number of leaves and lemons to maintain balanced proportions and avoid visual repetition.

Lemon Tree Sunny, Height 150 cm

Lemon Tree Sunny, Height 185 cm
Reference: 12145-71

Lemon Tree Sunny, Height 235 cm
Reference: 12147-71

Philodendron Monstera on coco pole

The **Philodendron Monstera on a coco pole** showcases its iconic split foliage along a vertical structure.

Classified as fire resistant, it integrates seamlessly into planters or staging designs in lobbies, offices, hotels, and event settings.

Reference : 12161-71FR

Height : 195 cm

Tetrastigma Plant

The **Tetrastigma plant** climbs along its coco coir pole, creating a dense and distinctive vertical green presence.

Ideal for adding depth and movement to an interior composition.

Reference : 12174-71

Height : 140 cm

Myrtle Tree

The Myrtle Spray quickly became one of our recent favorites, and we are pleased to now present it in a shrub version.

Available in two heights, this tree focuses on flexibility and fluid movement, far from overly rigid artificial silhouettes.

Myrtle Tree Height 135 cm
